Privacy Notice: What the School, Local Education Authority and Welsh Assembly Government does with Information it holds on Pupils

Subject

To meet the requirements of the Data Protection Act 2018, schools are required to issue a Privacy Notice to pupils and/or parents summarising the information held on record about pupils, why it is held, and the third parties to whom it may be passed on. This Privacy Notice provides information about the collection and processing of pupils' personal and performance information by the Welsh Assembly Government, Wrexham Local Education Authority (LEA) and Darland School.

The collection of personal information

The school collects information about pupils and their parents or legal guardians when they enrol at the school. The schools also collect information at other key times during the school year. Information is also received from other schools when pupils transfer.

The school processes the information it collects to administer the education it provides to pupils. For example:

- the provision of educational services to individuals
- monitoring and reporting on pupils' educational progress
- the provision of welfare, pastoral care and health services
- the giving of support and guidance to pupils, their parents and legal guardians
- the organisation of educational events and trips
- planning and management of the school

Welsh Assembly Government & Local Education Authority (LEA)

The Welsh Assembly Government receives information on pupils normally as part of what is called the Pupil Level Annual Schools' Census (PLASC). The Welsh Assembly Government uses this personal information for research (carried out in such a way that ensures individual pupils cannot be identified) and for statistical purposes, to inform, influence and improve education policy and to monitor the performance of the education service as a whole.

Examples of the sort of statistics produced can be viewed at www.wales.gov.uk/statistics

The Welsh Assembly Government, LEA and school place a high value on the importance of information security and have a number of procedures in place to minimise the possibility of a compromise in data security. The Welsh Assembly Government, LEA and school will endeavour to ensure that information is kept accurate at all times.

The LEA and Welsh Assembly Government uses the personal information collected via PLASC to do research, to make decisions on policy and the funding of schools, to calculate the performance of schools and help them to set targets. The research is carried out in such a way that ensures individual pupils cannot be identified.

In addition, the Welsh Assembly Government and LEAs receive information regarding National Curriculum assessment and Public Examination results and attendance data at pupil level.

Personal information held

The sort of personal information that will be held includes;

- personal details such as name, address, date of birth, pupil identifiers (such as photograph) and contact details for parents and guardians
- information on performance in internal and national assessments and examinations
- information on the ethnic origin and national identity of pupils (this is used only to prepare summary statistical analysis)

- details about pupils' immigration status (this is used only to prepare summary statistical analyses)
- medical information needed to keep pupils safe while in the care of the school
- information on attendance and any disciplinary action taken
- information about the involvement of social services with individual pupils where this is needed for the care of the pupil
- in addition, consent will be requested for biometric fingerprint details for canteen use

Organisations who may share personal information

Information held by the School, LEA and the Welsh Assembly Government on pupils, their parents or legal guardians may also be shared with other organisations when the law allows, for example with:

- other education and training bodies, including schools, when pupils are applying for courses, training, school transfer or seeking guidance on opportunities
- bodies doing research for the Welsh Assembly Government, LEA and schools, so long as steps are taken to keep the information secure
- central and local government for the planning and provision of educational services
- social services and other health and welfare organisations where there is a need to share information to protect and support individual pupils
- various regulatory bodies, such as ombudsmen and inspection authorities, where the law requires that information be passed on so that they can do their work

Pupils have certain rights under the General Data Protection Regulation (GDPR), including a general right to be given access to personal data held about them by any organisation. The presumption is that by the age of 13 a child has sufficient maturity to understand their rights and to make an access request themselves if they wish. A parent would normally be expected to make a request on a child's behalf if the child is younger.

If you wish to access your personal data, or that of your child, then please contact the relevant organisation in writing. Contact details are at the end of this page.

Pupils Aged 14 or Over
