

Javier Perez

Javier Perez is a Ecuador based artist whom has been posting work on his Instagram using everyday objects. You will notice that he uses one object in each drawing and simple lines.

Challenge

Your challenge is to make a minimum of 6 drawings using objects that can be found in your homes. You can use the same object for all your drawings or different objects.

Some simple objects I found in my house to give you ideas.

The aim of this is to get you thinking creatively as well as to improve your control of line and shape.
